Contents

| | |
|---|-----------|
| EXECUTIVE SUMMARY | 6 |
| 1 INTRODUCTION | 8 |
| 1.1 Background and Aim..... | 8 |
| 1.2 Structure of Report..... | 8 |
| 1.3 Site Location | 8 |
| 2 POLICY, REQUIREMENTS AND STANDARDS..... | 14 |
| 2.1 Environmental Minimum Requirements (EMRs) | 15 |
| 2.2 HS2 Information Paper E20: Control of Airborne Noise from Altered Roads and the Operational Railway | 15 |
| 2.3 HS2 Information Paper E22: Control of Noise from the Operation of Stationary Systems | 16 |
| 3 SCHEDULED WORKS | 17 |
| 3.1 Application Design | 17 |
| 3.1.2 South Heath to Wendover | 19 |
| 3.1.3 Stationary Systems..... | 22 |
| 3.2 Scheme Wide Design Updates | 23 |
| 4 NOISE MITIGATION DESIGN OPTIONS AND MITIGATION SCENARIOS..... | 27 |
| 4.1 South Heath..... | 27 |
| 4.2 South Heath to Wendover..... | 32 |
| 5 METHODOLOGY | 35 |
| 6 ASSUMPTIONS..... | 36 |
| 6.1 Uncertainties and Limitations | 37 |
| 7 RESULTS | 39 |
| 7.1 Airborne Rail Noise | 39 |
| 7.1.2 South Heath to Wendover | 43 |
| 7.2 Stationary Systems | 47 |

8 CONCLUSIONS49

Image 1 South Heath Cutting Site Location Plan (Drawing No. 1MC06-CEK-TP-DLO-CS03_CL05-000004) presented in Appendix A 10

Image 2 South Heath to Wendover Site Location Plan (Drawing No. 1MC06-CEK-TP-DPL-CS03_CL05-000074) presented in Appendix A 11

Image 3 Receptor locations for South Heath Cutting and South Heath to Wendover area 13

Image 4 Earthworks Cross section Ch 47400 24

Image 5 Earthworks Cross section Ch 47900 and 48200 25

Image 6 Location of Noise barrier to compensate for Earthworks removed from Design..... 26

Tables

Table 1 – Summary appraisal table, proposed mitigation scenarios, operational airborne noise 28

Table 2 – Baseline Case and ES for South Heath: Number of dwellings identifying impacts (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Aeq}) and SOAEL (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Amax}) and SOAEL (L_{Amax}) 29

Table 3 – Option 1 and ES for South Heath: Number of dwellings identifying impacts (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Aeq}) and SOAEL (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Amax}) and SOAEL (L_{Amax}) 29

Table 4 – Option 2 and ES for South Heath: Number of dwellings identifying impacts (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Aeq}) and SOAEL (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Amax}) and SOAEL (L_{Amax}) 30

Table 5 – Option 3 and ES for South Heath: Number of dwellings identifying impacts (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Aeq}) and SOAEL (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Amax}) and SOAEL (L_{Amax}) 31

Table 6 – Summary appraisal table, proposed mitigation scenarios, operational airborne noise 33

Table 7 – Baseline Case and ES for South Heath to Wendover: Number of dwellings identifying impacts (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Aeq}) and SOAEL (L_{Aeq}), Number of dwellings exceeding LOAEL (L_{Amax}) and SOAEL (L_{Amax}) 34

Table 8 – Stationary Systems input data 37

Table 9 – Operational airborne noise, Design Option compared to HS2 Phase 1 ES Design..... 40

Table 10 – Number of dwellings exceeding LOAEL in the Design and ES (as amended) (L_{Aeq})..... 41

Table 11 – Number of receptors identifying impacts in the Design and ES (as amended) (LAeq) 41

Table 12 – Operational Lmax noise levels compared against ES receptors..... 42

Table 13 – Number of dwellings exceeding LOAEL in the Design and ES for Lmax..... 43

Table 9 – Operational railway noise, Design Option compared to HS2 Phase 1 ES Design..... 44

Table 15 – Number of dwellings exceeding LOAEL in the Design and ES (as amended) (LAeq)..... 45

Table 16 – Number of receptors identifying impacts in the Design and ES (as amended) (LAeq) 45

Table 17 – Operational Lmax noise levels compared against ES receptors..... 46

Table 18 – Number of dwellings exceeding LOAEL in the Design and ES for Lmax..... 46

Table 19 – Predicted plant noise levels at assessment locations 48

Table 20 – BS4142-2014 Assessment Summary – Night-time (2300-0700) 48

Appendices

APPENDIX A

Schedule 17 Application Boundary

APPENDIX B

LOAEL and SOAEL Values from Information Paper E20 and E21

APPENDIX C

Detailed Technical Methodology

APPENDIX D

Assumptions

APPENDIX E

Stationary Systems

APPENDIX F

Overall Operational Noise for Design compared to ES – South Heath

APPENDIX G

Overall Operational Noise for Design compared to ES – South Heath to Wendover
