

Hyde End/Heath community

Impacts

- Residents' outdoor lifestyle, amenity
- Hyde Lane community wiped out
- Traffic issues
- Landscape, tranquillity, ancient woodland
- Loss of wildlife
- Footpaths – access for residents and visitors

All residents value the AONB and want to protect it for future generations

.....and our neighbouring communities are badly affected too

Footpath connections

.....a Berlin wall for walkers as much as animals

South Heath community

- **“Major adverse community-wide effects” (ES)**
 - **Disruption:** traffic issues; road closures; traffic routes
 - **Isolation /** dependence on Great Missenden
 - **Noise:** construction & operation (portal proximity)
 - **Amenity:** cycling; gym, pub; 5 homes lost; enjoyment of ‘own’ ancient woodland
 - **Dust, dirt, works and trace:** all on our doorstep
- Health & welfare issues, and blight

Impacts:

REPA Tent

Over 800 residents

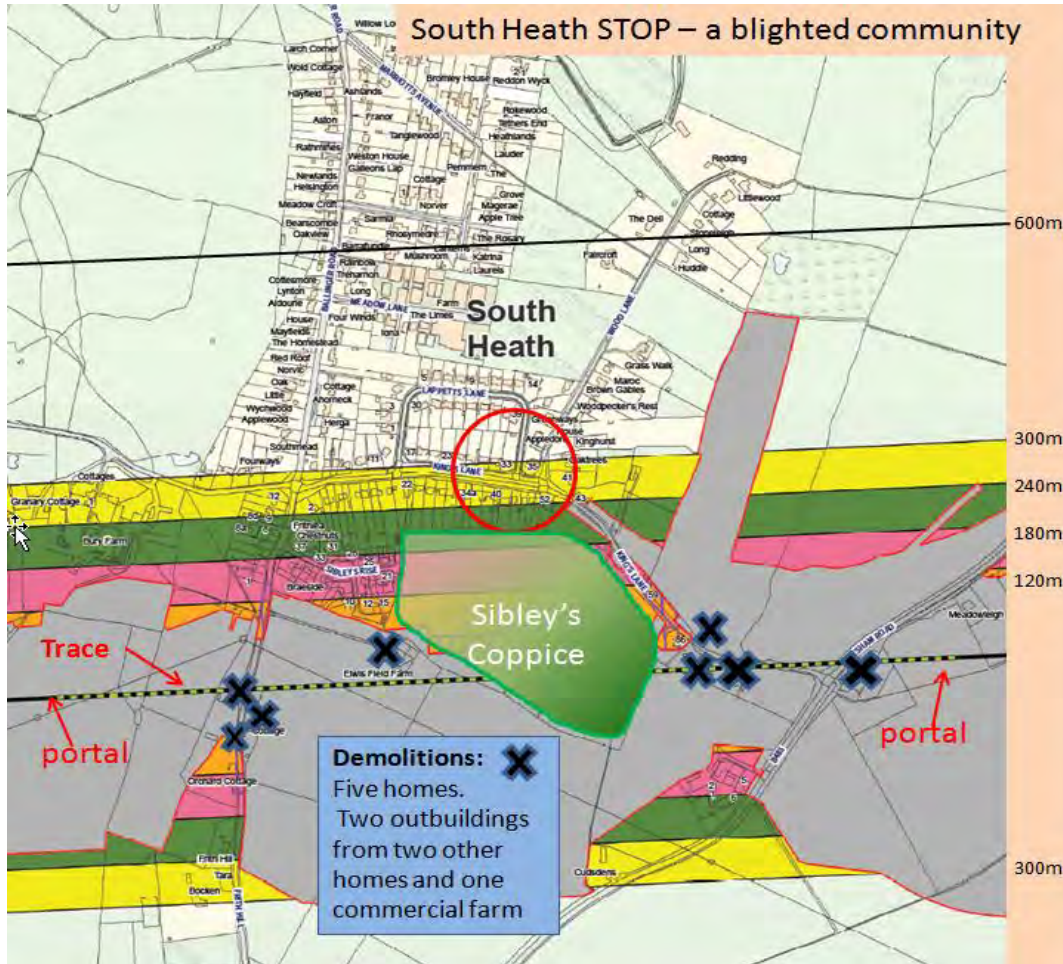

Sibleys
Coppice

Gym

.....a whole community that is sacrificed for HS2

South Heath

Blight

- Over half the homes within 600m of the line or 1km of the 2 portals.
- A huge worry, especially for elderly. No good just wanting to downsize or move in retirement

.....large part of South Heath within 500m, all within 1km

South Heath

...the only community in Bucks or AONB the ES says is “significantly affected”

Potter Row community

Impacts:

- **Elderly community within 300m of line, trapped & scared**
 - **Current impacts; Construction impacts; Operational impacts**
 - **Av. age (65+)**, can't cope with HS2 impacts, but can't move out, and can't outlast it. Trapped in the end of our years.
 - **Noise** – Green Tunnel ineffective; noise barriers inadequate; the official measure does not capture effect on our lives.
 - **Isolation** / dependence on Great Missenden
 - **Property damage** in construction
 - **Health issues, Anxiety & Stress:** people are suffering

.....a grim and stressed end to ones final years

Potter Row

Bury Farm STOP
